when Tomb Raider just hit  
shelves. From playable trailers to  
lengthy press conferences,  
publishers have a lot more to  
show about their games. And you

the title of the file here, after  
that is a save filename. (The  
code I've posted is not the full

Note - the point of the split is that each file has a file name and then.pdf on the end. The process created is to encapsulate this into a zip archive - and then check the compression of that. If it is
