The read.table function is doing some data processing on the data first. To get the spacing you want on the data frame, use read.table again and set sep="". Also, as @Salman pointed out in the comments, you can use cat and paste to concatenate all of your data into a single string at once.

```
from.converter import unittest as common_converter_unittest
import tensorflow as tf import gc import numpy as np def verify(graph, output): output =
graph.get_tensor_by_name(output).eval(tf.constant(42.0)).numpy() assert np.array_equal(output, np.array([1,
0, 0])) class UnconvertedConverter(object): def __init__(self, graph): self.graph = graph self.inputs =
graph.get_tensor_by_name('a').eval().shape self.outputs = graph.get_tensor_by_name('b').eval().shape
self.output_names = self.outputs[0] self.input_names = [None] * len(self.inputs) self.op = tf.tensor_
```

Smac20RegistrationIdKeygenGenerator

A: Lets assume that you have a directory called mydir. Try running this command: find /mydir -type f -print0 | xargs -0 -n 1 -r -P 4 -v {} bash -c 'echo {} | grep -o "Smac20RegistrationIdKeygenGenerator" && { echo /mydir/Smac20RegistrationIdKeygenGenerator ; }' This will create an echo command that searches each file for the word 'Smac20RegistrationIdKeygenGenerator' and only reads those files which match the regular expression. The -P 4 option would cause xargs to run 4 jobs per file. The -r option means xargs will accept recursive arguments. The -v option will cause xargs to tell you each line in its output so that you can see what it outputs. {} means that xargs will read the whole argument before doing anything. This is the equivalent of passing a command directly to the shell. {} is just meant to be replaced by the argument. The -n 1 option means xargs will try to execute one command per file which it reads. The last -v option will display the output. {} means that this is the argument that will be executed. GOODYEAR, Ariz. -- Rob Manfred and the players jointly announced Wednesday that a resolution was reached on player support of a sense of common purpose and a desire to improve the professional game. "Today, we resolved a fundamental issue in baseball by bringing our players together with our owners and Commissioner [Bud] Selig and Vice President [J.G.] Selig, Jr. to discuss the way forward," said Manfred, the commissioner of Major League Baseball. "The whole process has

been an outstanding example of our industry's commitment to be more transparent, collaborative and forward thinking. Our players and owners finally agreed on the core tenets of the resolution, and how to move forward.

I am confident that today's meeting helps us set the stage for the rest of the winter and next spring and will serve as a guiding light into the future." MLB announced the news in a news release issued by the Milwaukee

Brewers, whose general manager, Rick Schlessinger, was the lead negotiator on behalf of the owners. The announcement was made at the Brewers' spring-training facility in Phoenix. "Baseball owners, players and the commissioner 3e33713323
