I have downloaded and installed a modpack for Minecraft 1.7.2. How do I publish it? A: You need to rename the.zip to.minecraftpack. The pack is still a zip, but has the.minecraftpack extension. If you are on Windows, go to Windows Explorer (C:\) and find the folder where you have placed the pack (usually "Mods\1.7.2"). Right-click on it and choose "Send to...". In the "Select a program" drop-down menu, choose "Compressed (zipped) files". If you are on Mac, go to Finder and find the folder where you have placed the pack. Click on it and choose "Open". A: You can always try and just download and try the pack. If it doesn't work you can always try to add the mod pack to the minecraft.jar file. A: Download the file as a.zip archive and then extract it. In Windows Explorer you go to the.minecraft folder, right click and select 'Extract here' In Mac Finder it's usually in the.minecraft folder EDIT: For older versions of Minecraft you can just download a.jar file, which is almost the exact same thing, from here. Download minecraft.jar Extract the contents of minecraft.zip Copy the contents of the unpacked folder to the minecraft.jar folder For many years, telephone communication has been accomplished by placing the caller on hold while a telephone operator answers the call. This time-consuming process was largely a response to the presence of two competing companies with incompatible equipment. To this day, most telephones are still equipped with an internal mechanism which holds the dialing digits of a caller on hold until an operator ca3bfb1094
