You probably heard that the Giant Spider was the reason for all the disasters... You hunt the Giant Spiders, and in return, all you have to do is to find them and collect their DNA. With the help of your partner, you must traverse the most desperate places on Earth to find the location of their DNA. When it comes to hunting, you can't just go and jump on some spiders and kill them. You need a lot of planning and foresight. To catch a giant spider, you need a source of continuous electricity. You need some explosives to get rid of the Spider's nest and wait for the correct time to get in and then find their DNA. But, if you move slowly you would be able to discover it.
