The Online Fantasy Role Playing Game developed by Yongnuo Corporation. For more information, visit www.yongnuo-corporation.co.jp/eldenring. AOS: Ascension of the Gods (アセンション・オブ・ザ・ゴッズ) is a 3D action RPG developed by CAVE (PLAYERUNKNOWN'S BATTLEGROUNDS) and published by Marvelous AQL. Players take the role of Athena, who lives in the peaceful city of Falaise. The city has already become home to the Seven Gods, who the player will aid in battle. Players will travel through stunning landscapes and will enjoy the battle with the Seven Gods by using three forms of play: Free movement in a two-dimensional plane where you move freely, be it horizontal or vertical movement. Players can freely perform actions or use powers: enemies attack the player using varying types of attacks, players can evade their attacks or block them. While fighting, the player can attack using a variety of weapons. In addition to the various attacks, players have the ability to block enemy attacks using weapons and their own bodies. Players can equip a variety of weapons (e.g., blunt weapons, short swords, long swords, shields, bows, crossbows, etc.) depending on the situation. Players can also equip armor with varying levels of protection. As a result, in battle, you will possess a variety of various weapons, armor, and magic, to which you will be able to show off your diverse skills. Furthermore, the players can customize the appearance and development of their characters through a variety of play options. As a result of the various options available, the user can experience the joy of play in any style. Players will create their own worlds through their actions, and enjoy the numerous emotions of battle. ABOUT CAVE Cave (CAVE) is a Japanese RPG developer and publisher based in Tokyo. COUGARY is their company's first game and was developed for the PC. COUGARY is owned by the same companies which own the FRONTIER DOGA series, and is part of the development team for FRONTIER DOGA. COUGARY's second game, AOS: Ascension of the Gods, was released in 2016 and is also the first game that COUGARY published. For more information, please visit www

Is there a way to achieve that with css? Here is jsfiddle A: If you want to use border-style (more about it in css), then with css, no, you can't. But with JavaScript (JS), yes. I changed your HTML a little bit to allow it to be easier

changed: And here is a working example using the first textarea : function create(){ var row2 = document.createElement("textarea"), row3 = document.createElement("textarea"); row2.id = "row2"; row3.id = "row3"; row2.rows = "5"; row3.rows = "5"; document.body.appendChild(row2); document.body.appendChild(row3); } #row2 { border: 1px solid red; border-right: 0px; width: 50px; height: 50px; }
