**What's new in Elden Ring:**

I was hoping for Star Ocean (The game I feel most enthused about of the 3 Star Ocean games) and its speculations of future Star Ocean games. Now it is de-emphasizing their speculations of creating Star Ocean 3 and 4 with, in which they mentioned magic. I still wonder if it is so that they decided to start having a Western Mythology (i.e. Marvel Comics Style) period for our new Star Ocean 4, or it is just simple politics. Unfortunately, I feel this is a loss for the series and the fans, because Star Ocean is an original, unique and one of the few video game franchises that doesn't have any sequel. If it is indeed a political thing, then I hope this doesn't hurt the series. With the "new generation" and "new game design", maybe "new innovation in the new generation" is what is missing and other games are making it for us.

**Forget Me Not: A Year of Extra Life 2017**

In 2016, Fanatical made 'Forget Me Not', the first online game that allows users to equip Aspect Shields. Players use Aspect Shields to defeat monsters and gain the 'Forget Me Not' bonus. It's an Aspect Shield that allows the user to jump over the smallest obstacles for an extra counter in combat. This year, an extra 'Year of Extra Life' will be added. Players and users will be able to use the additional year by using a 'Year Of Extra Life' Aspect Shield while controlling a class character on an online server. 'A Year of Extra Life' takes place once a year, i.e. a year later, and yet keeps the existing mechanics, which will result in a unique experience for users. The event is supported on FANAFILM Game Link. You can play online together with your friends, even if you aren't connected at the same time.
