This new system is an exciting step for gameplay on and off the pitch. Players will feel less rigid in the field, and possess a new level of agility and speed while dribbling, shooting, using attacks off the ball and taking on defenders. The game's engine has a new match engine, which implements HyperMotion Tech. This ensures that the game is more authentic, more accurate and more immersive. The engine also includes new controls, improved animations and updated player models. FIFA 22 also includes improved ball physics. This system will be more intuitive and easier to use for the players. You can use the mouse wheel to control the game. A new 360 feature (comet) enables you to navigate the pitch and control the game with the mouse using just a single movement. The following overview pertains to all platforms including Xbox One, Xbox One X, PS4, PS4 Pro, PS4K, PC/Windows, Switch. Are you ready for the footballing

future? On top of many, many other awesome changes to FIFA 22, we're bringing you HyperMotion technology, which will make players feel more agile in the field, tackle and pass. Also added to FIFA 22 are improved ball physics, improved animations, and updated player models. A more intuitive Controls menu means you can still choose to use a controller or a mouse, and PlayStation VR has been added to the game for those looking to experience the official FIFA video game in VR. Check out our updated FIFA 20 Changes: Best Looking Games, CPU Boost and More Pre-order FIFA 22 on Amazon.com Product Features HyperMotion Technology New Engine - The game's new engine has a new match engine, which implements HyperMotion Tech. Fifa 22 Features Key:

- Pick from over 250 authentic, licensed national teams from over 30 confederations, each with its own unique flair and style.
- Various play styles, including World Class, Attacking, Counter-Attacking, Precision and Technique, Possession and Rifling, where you choose the direction to play by taking advantage of the game's artificial intelligence!
- Improved match simulation: Ball control and the movement of your team make the difference in the pitch, and it shows on the pitch. You will have to choose your approach to the match, and get the most out of each action.
- Improved goal graphics, which will ensure you have the best possible presentation of the finale of matches.

- FIFA World Cup, UEFA Champions League and Europa League gives you the chance to live the feeling of being a champion, such as the real-life highlights of World Cup 2018™.

-
- Live the tournament experience and interact with your team from the start of every tournament. Passers, challenges, free kicks, penalties, scorekeeping, substitutions, the offside trap and more are all controlled by real-life managers during the real-life matches in the FIFA World Cup 2018™. This is the only football simulation game that gives you the chance to create your own tournament, from the preliminary round to the final!
 - Live The Game experience: Enjoy the real-life action of the most renowned football teams of the world in the new game modes.
 - New current-generation presentation: Dynamic animations and new 3D generation technologies ensure that the game delights you every time you play.
 - Let FIFA 21 be a new way to live the digital life of a football player with all of the functionalities a real football club has. Very new, lots of innovations, news, rets, clubs, etc...
