Features Key:

- Level and Tier Scores reveal your level and Tier within the Ultimate Team game mode. These metrics are weighted by the time you have spent in the mode, not your performance.
- If your Pass Catcher stat is higher than 5, you can work out how many more passed goals your Pass Catcher won than you scored. While it is perfectly OK to miss your shots, it helps if you are able to get the ball over the line.
- Although it is not mandatory, having a Goal Attacking unit on your team will assist your players with scoring.
- In the Goal Event, the more players you have on your line-up, the more goals will be scored for you.
- Other Improvements
 - Play off the ball more consciously, for example, using a Counter-Break to isolate one of your players and then execute a cutting pass into open space
 - Intuitive controls, with the ability to double press directional pads to slide feet-first to a ball that is in tight gaps, easily, with the feel of a real football, like FUT 14. We have also refined the control set up, put back and adapt buttons to make it much simpler to use
 - In-game stadium editor, adding new goals and luxury seats in your new club's stadium
 - 20+ brand new teams, from Underdog legends, to the best club eva having won multiple FIFA titles.
