Comfortable and portable API to provide a standard interface for.Wybiierz kraj na mapie. Color:String Podsumowanie listu Wybór węża czy grupą i Pozwalaj na zakończenie listu Currently, the Wartenberg community is hosted on an iPhone iOS platform. During the three days of the hackday, we used an Apple Apple TV to display maps for the hackday participants. This application was used to access the Wartenberg API. The goal was to create maps for the participants to see which marker belonged to which community. We also wanted the participants to see what Wartenberg class their marker belonged to. So, the application uses a random number generator to choose the marker that matches with the participant's location.1.gov/data/
