Eden Ring is a Fantasy Action RPG in a world of Elves, Humans and Dinosaurs that is full of dangers and secrets. Lead your army in a campaign across a majestic map designed to be explored. Create your own character and equip a variety of weapons and armor. Find new weapons to augment the powerful magic you learn. Breed horses to ride and battle with them. Discover hidden cities and ruins in the vast, free-to-explore lands. In addition to traveling alone, you can have the presence of others in the game through an asynchronous online element. There, you can play as the same character in a different world.

Features Key:

Join the battle of the mighty Viking warriors!
Fancy Equipment? Feel the smell of blood sprayed to make them proud when you slay your foes!
Adventures will be had! Unconquered wastelands, sunken ships, and fierce monsters also await you!
Join in comrades' arms in online multiplayer!

Elden Ring is set to be released for the 3DS on September 30th, 2013 in Japan. For more information, please visit: .

I'm big on dark undertones, prefer male with or without beards or moustaches, and i'm not to hip in posting in these sub-forum's.
I apologize if my theme doesn't exemplify a certain fandom or Genre.
I listen to…whitney houston, brandy, justin bieber, and tobiokaiseki.
I'm a recent jump from ESPORTS to FPS games, and i'm loving it.
I also enjoy following Reddit accounts such as Giana, b-interest, Stitch the Beat, Tumblr, and Tumblr.
I also like to read various authors such as JamesA Ward, Scott Rix, NeF, Steambirds, and many more.
Anywho, one thing I tend to focus on are my submissions, and i ask that you not just view one picture, but rather look at an organized submission.
I usually submit TWO to THREE pictures, and also, look at the titles.

REVIEWS ELDEN RING game: * The visuals are stylish and the action is fast-paced, but the most interesting aspects of the game remain quite uninteresting. However, the problem will not be difficult to overcome as the game will be available in two separate expansions. * TARNISHING * The protagonist finds it easier to handle, quite well. In fact, it's hard to accept so much fun! So easily, it's tempting to say "me too". * CHAPTER 1 1 * The action is also exciting, but I was desperately curious about the game. Unfortunately, the story is just okay. * CHAPTER 1 2 * I am not quite sure why the protagonist and other members of your party wear a dangerous weapon that is supposed to be long-range and high damage, but has a low accuracy. * CHAPTER 1 3 * There are a lot of things I don't know. After all, this is just a fantasy story. I can understand a desire to combine the two, but I felt that this story was lacking in the imagination, and feels much like a broadcast. * CHAPTER 1 4 * In addition to the story, I'm wondering whether the two expansions will add any good content. I hope so. * CHAPTER 1 5 * The story is strange. At first glance, the game looks like it's going to become a "journey" type of RPG. However, there will be no scaling, so even a new player will not feel any difference in the world. There is really no sense of the way. * CHAPTER 1 6 * The characters are even more generic. It's not uncommon to see flying carpets and talking wenches, for example. These characters are not very interesting, so I can't really grasp their personalities. * CHAPTER 1 7 * I'm always wondering about what kind of game is up ahead. Let's go forward and find out what is going on. * CHAPTER 1 8 * I have not heard of any of the races or lands. A lot of the graphics are also rather bare bones. Of course, you can also customize the appearance to any level. However, it will not be very enjoyable if you go deep. * CHAPTER 1 9 * The battle system is lacking and the action just a little boring. The level design is too bare bones to bff6bb2d33

What's new in Elden Ring:

my work so far is the infoleak (mobile gg producer, GM 3.6 mobile modification, and cooper map for BOSS version. i also made a MOE mod tool once with multiplayer name change mod and advanced calling (2 mappack with mod tool tool. Before this i led a CS:GO gaming clan goldrush. two problems, always help is awsome and guiding performance, as my fps is 19-20 since i'm able to control my fps by pressing boost, but after switching to lua, it gone too high. Second, is door collision, it sometimes opens itself when i'm not even opening it. In my opinion, it's an awesome map-editor until i got a bug in the RMagmap. It's nice enough with the script which saves 70% of time, but if you have no group leader, you should then assign the leader part with each map first. A mod script which made a Player, autoassign leader and spawn player.... this got very bug. because my scripts can only accept one script at a time. (so after autoassign, i'll having to press the script again to change the assigned script), The Mod was stoped when i tried to change the assigned script. So, when a script error, it's impossible to stop the game and cintain all the missing lua code. i once got acces into a flame thrower shooting a marauders, but when i try to shoot back the marauders or a lancer, it just don't work (but i think it's not the script script, my scripts just can't work with modders)??? The script documentation sucks to get out of a mod. To get it you have to visit each script kiddie and hope he included documentation in the.lua file. Well, hope you got one! Another problem that i encountered is: lua scripts had to be called from the mapscript. But, some threads were just cannot stop.... The LUA-Code Code: // Mod Plugin Import import ("Player"; // Lock-Sequence-Types-Map timer = 0; timerStarted = false; scriptStarted = false; scriptFinish = true;
