---

When you begin a Fantasy Grounds adventure, you will need to perform some basic tasks to prepare for the game. But, once you start playing, the thrill of the adventure may feel more powerful than the tasks you have performed beforehand. This feeling is exactly what is intended by Fantasy Grounds. Why? Because, with Fantasy Grounds, the player is essentially in charge of the adventure. It's up to them to decide how to overcome obstacles, where they will spend their time, and ultimately what will be achieved by the end of the session. But, if you need help or an overview of where to start, you can review our Fantasy Grounds Introduction. Fantasy Grounds is a great tool for group play. You can use it to have a shared experience together, or you can use it as a solo experience. Solo, it's much easier to make up a story, and it will help greatly with keeping your players on the right path to success. Group play, on the other hand, is more collaborative, and usually a wonderful experience. With Fantasy Grounds, your players can watch you create your adventure, and help in accomplishing goals they share with you. It's a great way to develop a story and create a truly memorable gaming experience. You can download Fantasy Grounds here: [Gameplay Mechanics](#) As part of the Savage Worlds ruleset, we have converted the Hellfrost: The Blood Tide adventure. So, where you would find rules for specific aspects of the Hellfrost: The Blood Tide adventure, you will find the Savage Worlds Conversion Guide. We have provided the Savage Worlds Conversion Guide as a pdf download file. It can be downloaded here: [Please note, this guide is provided for your convenience only. It does not constitute the Savage Worlds ruleset.](#) **Storytelling** When creating an adventure with Savage Worlds, you have a number of storytelling tools at your disposal. One of the most powerful of these is the Story Point Chart. This is a tool which allows you to track the progress of your story, and to report to the players when a particular story point is complete. We recommend using our Fantasy Grounds Story Points Tool to generate your Story Point Chart. There are five Story Point Cards. Each of them can be ordered online for \$3.00 USD each. You can also download them for free
