All you need is raw materials to create your own campaign, or break down the fantastic world into a series of adventures. *The Good, the Bad, and the Ugly...* is a collection of seven one-sheet adventures for the *Deadlands: Reloaded* fantasy roleplaying game, featuring 7 Quick Adventure Modules for the Fantasy Grounds virtual tabletop. Each of these adventures has been converted for use with Fantasy Grounds. They can be used in existing campaigns or as ideas for your own adventures. This is the first time *Deadlands: Reloaded* has been converted to a virtual tabletop format. The six adventures in the previous hardback PAK, were all printed on an 8.5" by 11" booklet and were designed to be dropped into an existing campaign. This issue of the RPG's one-sheet presents a new approach. That is, each of these adventures is designed as one RPG session, so they can be dropped into an existing fantasy campaign or used as the basis for a completely new campaign. These seven adventures are compiled in to a one-sheet that also includes a single sheet for a full size fantasy map that serves as a virtual tabletop table.

**RECOMMENDED SYSTEMS:** *Savage Worlds / Deadlands Reloaded / Fantasy Grounds (Virtual)*  
This is the first issue of the newly converted adventures. Each one-sheet features cover art along with one of the other four adventures by the same author. Though you do not have to own *Deadlands Reloaded* in order to play this

Fort: The Movie Fort: The Movie is a 2009 American historical drama film

---

loosely based on the life of Confederate general John Bell Hood. Directed by Richard Ray and written by Paul Weitz and Rob Ashford, it was the only film in the History Channel Supernova series that was not covered by Entertainment Weekly. Plot The US Civil War is in its third year, and the country has finally managed to reunite and is preparing to dismantle its Confederate military. Robert E. Lee and Ulysses S. Grant have joined forces and are threatening the Union victory at the Battle of Appomattox. As the war nears a resolution, the world mourns for both Union and Confederacy soldiers who were killed in the war. As a favor to a wealthy Virginia gentleman, Dr. Will Graham (Jeff Fahey) recruits in 1974 to use the faerie knowledge of The Smithsonian Institution to find the riddles to unlock a gate into a mysterious and ancient tunnel inside of the sewers in downtown Washington DC. As Graham digs deeper, he uncovers further about secret U.S. operations, including not only historical secrets and deep-layer geopolitical intrigue, but a mission to scout out an ancient weapon that can threaten the new world superpower that has formed out of the ashes of the American Civil War. There are only two known surviving relics from the chamber of the Gate: the map, given to Graham by his CIA handler, and a strange relic given to Graham by his Smithsonian handler, called a "clint" (a technomage term) by Graham. A half-century later, Graham finds and discovers that his expedition partner, William James aka

She has discovered a number of interesting facts about the most common form of this frightening disease. As she reads each day, she learns something new and valuable about this sickness. And, so it came as no surprise that one of her headlines will be, "How Do I Make My Mom Live Longer?"

---

Julie has spent much of her life going to the doctors to get her health fixed. She spent years searching for a way to improve her health without any significant results. This was a tremendous waste of her life and money. During her research, Julie discovered the failure to take care of the body is one of the primary causes of disease and premature death. Through the years, she has known this to be true. What was Julie's mom like when she was a young girl? She only wanted to be a dancer and kept saying she wanted to be good at something. The only thing Julie knew her to be good at was making kids cry with her terrible jokes. To Julie, her mom was always a joke, but she was never
