Explore a rich, tactical, turn-based strategy card game with a non-collectible item acquisition system. Featuring a card collection interface with a Dominion-inspired game play, an intense cooperative multiplayer experience, and storylines that take you across Tamriel. TESLegends is now playable with both iOS and Android devices through the Apple App Store and Google Play. TESLegends was officially released April 29, 2017. Accompanied by a free mobile companion app, TESLegends includes a virtual card game and all the card decks from the base core game, but does not include physical cards. The free mobile app can be used to track card collection achievements, view cards in your collection, replay or replay completed matches, and more. In addition, the app will provide a link to the free core game in order to unlock and play the virtual versions of all cards for free. As a result, TESLegends does not require a physical card collection to play the game. All cards and abilities in TESLegends are also freely usable in the base game as well as expansions and other game modes. In terms of card acquisition, TESLegends uses a free-to-play model where players will be able to acquire cards and use them to build their decks. There are three ways in which players can acquire cards: Play the single-player mini-games for limited-time rewards, such as colored chests that contain cards of that color. Play the cooperative multiplayer mini-games, such as Dominion where players can use cards from their collections to build their decks. In the case of the cooperative multiplayer mini-games, all players are of a single faction type, but the color of their cards does not matter. Purchase cards with crystals, which can be acquired in the in-game shop with in-game gold. All cards in TESLegends can be used in all game modes, and once a card is owned, the character it is attached to can only gain it by using crystals to purchase cards. All cards can be used in the single-player and cooperative multiplayer modes. Game Mechanics TESLegends is a turn-based strategy card game. All players are on a single map at the same time. During each round, each player plays one card at a time. Unlike the classic game of Dominion, all cards are used to build a deck. The key mechanics of TESLegends are: d41b202975

What's new:

is a free-to-play TCG for desktop and mobile players and our latest update is here: **Take on the Armorsmith! With 10 new cards in the form of First Impressions, this week we take a tour of this new character in Legends - the Armorsmith. For our newest First Impressions, we're taking a look at the Armorsmith, a character role who specializes in creating common weapons. Full information about him can be found in the master card frame. Introduction Prepare to craft your own weapons! The Armorsmith Armsmiths are all over Tamriel. As skilled smiths in the largest city in the world, they have access to a vast selection of weaponsmithing tools, materials, and other ingredients. The Armsmith is a class of character that puts forth some of the most powerful creatures in the game. Armorsmiths craft powerful weapons of any range: melee, close-range, range, and even items that stack with your troops. In addition to crafting weapons, Armsmiths are experts in crafting clothing, armor, shields, and other items that boost your character. Unlike First Settlers or Tinkers, which only can craft certain items on your settlement and under a character's specific professions, Armsmiths are permitted to go anywhere they want and craft any type of weapon. Their area of expertise in the game is so vast that the Armsmith is one of the most powerful classes in the game. Weaponsmith Artwork In beta testing, players often asked: 'How do you do that (look so good)'; So we produced more than a dozen images of Weaponsmith art, including various cards, the heraldry, the alpha and more. Like with everything else, expect your art to look even better once launch hits. :D Where's my Armor? In current testing, players are able to find Armorsmith's in all of Tamriel; But for now, Armsmith is only available in Tamriel's southern area, Ayleid Isles. Armorer skills While Armorsmith is primarily about crafting weapons, his kit and class skills are focused around craftable armors. Armorsmith quests are actually**
