Blazing Souls is a tactical and RPG hybrid inspired by the 80's style of arcade games like 'The Burning Ring of Yugoloth' or 'Dark Castle'. You play as a single unit and a party of up to 4 players, and you fight against the evil forces of the dark forces of the world. You will guide your units through a series of events inspired by classic 80's RPG's. Each combat scene consists of 3 main phases, which you can skip and use for tactical purposes: Infirmary - You can heal your units in this phase, using up a rune which replenishes over time. You can use this phase to heal your units between battles. Battle - This is a standard turn-based RPG battle scene where you will fight against your enemies using various units in a pseudo-turn-based manner. Safe-Zone - A battle scene made into a safe zone where all enemies are defeated and you can rest your units. Blazing Souls features: Single and multi-player RPG action RPG hybrid. Choose from various units, ranging from the powerful Valkyrie and warrior units to the powerful bowman and healer units. Fight against an endless dark army with your party of 4. Each party member gets experience points and can be levelled up to improve their combat and strategy skills. Fight through 5 challenging scenarios based on popular 80's Fantasy RPG settings. Each scenario features a unique combat scenario where you will face a variety of enemies and bosses. Battle and fight against a vicious dark army. Fight against and defeat an army of dark monsters including dragons, ogres and even mystical creatures. Fight against and defeat all the enemies in a best of 3 battle. Fight against and defeat your opponents in various zones of the world and complete the story by ending the quest. Storyline and Campaign Mode Story The world is being invaded by sinister forces that came from beyond the dimensions. The world is in peril. Six cities lie in ruin, and their vicious inhabitants have been unleashed on humanity as the races are pitted against each other in a terrible struggle for survival. The one hope for humanity lies in a self-proclaimed prophet, who claims to be a

**\* genes should be subject to negative selection. The \*Oryza sativa\* genome also possessed the minimum (\*Os(x)\*) and maximum (\*Os(b)\*) number of \*Scarf\* genes with five and 16, respectively ([Supplementary Table S4](#DS1){ref-type="supplementary-material"}). \*Oryza sativa\* also possessed very similar number of \*Scarf\* genes to \*Arabidopsis thaliana\* and other monocot species. Nonetheless, the \*Os(x)\* gene set was more similar to monocot \*Scarf\* genes than the \*Os(b)\* gene set ([Table 4](#T4){ref-type="table"}). Because the first complete postembryonic mutant of rice, \*gig1\* ([@B61]), has been described as having auxin depletion phenotypes ([@B120]), we tested whether \*scarf\* mutants displayed similar auxin depletions. The \*scarf1-3\* mutants with the lowest number of \*Scarf\* genes, \*scarf4-2\* and \*scarf6-1\*, displayed stronger phenotype than the \*scarf1-1\* mutant, which also has less \*Scarf\* genes. Additionally, three of the \*scarf\* mutants (\*scarf1-3\*, \*scarf4-2\*, and \*scarf6-1\*) showed a loss of the primary root and/or changes in the trichome development ([Supplementary Figure S11](#DS1){ref-type="supplementary-material"}), whereas the \*scarf1-1\* mutant did not show defects. A closer examination of trichome development also showed that \*scarf4-2\* had milder phenotype than \*scarf1-3\* and \*scarf6-1\* ([Figure 8E](#F8){ref-type="fig"} and [Supplementary Figure S11](#DS1){ref-type="supplementary-material"}). Crusader Kings is a real-time strategy game developed by the famous Paradox Development Studio. Over the past ten years, Paradox has created a vast rts empire builder history simulation game series under the name Europa Universalis. This release will include an expansion pack for the previous Europa Universalis Hearts of Iron 3, Crusader Kings 2. The Rise of Rome is a hybrid game set in Ancient Rome. It is a mixture of an RTS and a virtual history. Over the time of the game players build a city, dominate the provinces around Rome and expand their influence in the surrounding regions. The game features more than 35 factions that offer several different gameplay styles and mechanics, as well as different kinds of units with unique abilities. You have the freedom to play the game in the best way for you. The AI will fight against you and against each other according to their own needs. Key Features: Control the Roman Empire The gameplay combines various elements of real time strategy, management sims, historical simulations and board games. Every faction has different mechanics, strengths and weaknesses. There are subtle balance issues throughout. Become the most powerful leader in the Roman world Your actions have a huge impact on the game, as you not only fight against other players but also against the AI. Build, manage and improve your city A strong economy lets you build units to improve your infrastructure, and you can build buildings such as temples, arenas, theatres and docks to raise your city's population. A diplomatic system lets you negotiate and deal with other Roman factions. An economic system lets you manage your provinces and their ability to produce food and money. Introduce laws, set taxes and speak to hundreds of courtiers Different cultures develop in different ways, and each faction has its own character and history. Emperor. A king is a king. Even in the Roman Empire where governance is much more intricate, the powers of the Emperor are almost absolute. Today, humanity lives in his shadow. The Roman Empire has ceased to exist. When he dies, the successor to the Empire will be chosen not by the people but by the Senate. This is a horror that fills the hearts of all Romans. Caesar. Caesar is the human embodiment of the Emperor. Only one man in the Empire has the power to decide his fate, from now on, it will be a full-time job. It is a life of luxury or
