

Start on the brink of ruin and barely escape disaster! The kingdom of Sandpoint needs your help, and you're the only one who can save them! Despite their trappings of civilization, the Highlands of Runen hold old magic and dark secrets... Discover the mystery of a strange, ghoulish object of power and possibly a dragon-worshipping cult in the heart of the mountains, and uncover a secret society of goblins intent on murder, mayhem, and stealing the hard-earned money of Sandpoint's citizens. Travel to the southern part of the isle to meet a mysterious noble who needs your help and reveal a viper cult plotting to poison the land. Travel to the west to find a cutthroat trader who needs your help to save her daughter from a grave danger in the goblin capital. Hazards are everywhere! Don't get caught off guard—be prepared! Take on the dangers and come out unscathed (or at least, alive)! Gain and apply class-specific abilities to keep yourself or your allies safe and prepared to succeed in the perilous challenges ahead. Face a variety of enemies and make use of your special encounter cards to avoid the worst. When the world is on the brink of collapse, it calls only you for help! When the real threat strikes, step in and save the day! I've seen a fair few from different companies and this is pretty far reaching most of what i've come across. Your'e lucky to be the first and i hope you can utilise this extensively for your campaign. You've got a hell of a lot to work with in this. As a GM i think it would be a powerful way to start a campaign from scratch. I think you should make a booklet and hand it out to show you're 'playing'. If anyone wants a PDF copy drop me a mail and i'll send you one. I really hope people use this. It has the potential to be quite epic. To the person who posted this link: You're absolutely right. This has some great potential, and could be used to good effect in many a game world. If I were to give this a rating, it would be a 8. It's a powerful tool and it has a lot of potential. Here are a few quotes from the site it takes its ideas from. Here is an entire description from the site. You get 14 Total Class Cards and

8.5/10 Akane controls perfectly in this traditional beat 'em up, no easy button to press.4/5 The controls of the game are as simple as they come. The player has to use the mouse to move, attack, dash, jump, and dodge.4/5 The fighting system works well with the controls. You have to shoot, dodge, jump, dash, and then shoot again, while avoid being shot by your opponents.4/5 Akane's fighting style is unique: the art is polished, and there is a different style to each of Akane's moves.4/5 The game is addictive, I like the character development and the different combos that Akane can get during the game.4/5 The boss battles in the game are incredibly difficult: hard, but fun.4/5 The voice acting in the game are sub par, but doesn't detract from the game's fun factor or increase the game's difficulty.4/5 Akane's VO and voice acting has been designed to match her music.4/5 The music in the game is brilliant. The voice acting is appropriate to the music, and the sound effects in the game are well-produced.5/5 Voice acting in game adds character and personality to the player, while the music further adds to the game's atmosphere.4/5 The game's soundtrack is a combination of classical, jazz, rock, and other music to fit the atmosphere of each of the levels.4/5 The game art reminds me of a Bruce Lee classic.4/5 There is a total of about 20 different styles, and they all are well done.4/5 The difficulty curve in the game is balanced. The game becomes easier the more you play through it.4/5 The game's art and sound design brings depth to the game. The music's sound are well-designed.4/5 The game play is well designed, I don't feel that the controls are too difficult.4/5 The Game was Impressive. 1/1 The gameplay of the game isn't balanced, because the player has no reason to lose their health because of the enemies.1/1 The game controls are very difficult, because the player needs to dodge an attack while shooting while avoiding being shot at.1/1 The game has excessive music. It's just too much. The game is overly long, and the music would be just as enjoyable if it was just half as long.1/1 The
