Windows RT 8.1 official: Windows RT 8.1 for your Windows RT box (laptop or tablet) including the. from the Live Update or Windows Update services. Is there a Microsoft way to just turn off this thing? I tried to turn. off Windows Update to no success and they..never update. A: I believe there is a way to simply turn off the background updating. You'll need to remove Microsoft's desktop software. (you can turn it back on later of course) Start type regedit hit enter Go to: HKEY_LOCAL_MACHINE\Software\Microsoft\Wind

ows\CurrentVersion\WindowsUpdate and delete the following: DisableInstallService_General
DisableInstallService_WindowsXPS
DisableInstallService_LocalSystem
DisableInstallService_Restricted Note that only the old Install Service key will be "updated" to 2.1. For Windows 8.1, it will look like this: HKEY_LOCAL_MACHINE\Software\Policies\Microsoft\Windows\WindowsUpdate If you are not a true Windows 8.1 Pro and you just want to update to the Windows 8.1 Pro bug fixes, you'll also want to do this: HKEY_LOCAL_MACHINE\Software\Policies\Microsoft\Windows\WindowsUpdate If this is your first visit, be sure to check out the FAQ by clicking the link above. TY for the great information. In our bedroom we installed a 2.6 24V controller with DC12 on the front at the master. And 3 DC12s one on each side of the bed at the end the back and 2 horizontal port for power to the TV's and lighting with the rest of the plugs at the back of the TV. I also added a CTV./* * Licensed under the Apache License, Version 2.0 (the "License"); * you may not use this file except in compliance with the License. * You may obtain a copy of the License at * * *
