All in-game decisions are made using EA's proprietary Decision Engine, which is based on the human brain using machine learning and machine reasoning. In FIFA 20, 70 unique attributes were used to calculate overall ratings across the board for every player, whereas Fifa 22 Free

Download uses enhanced intelligence to give each attribute an even more specific role on the pitch. Pro player ratings are now based on the characteristics of the athlete and how they perform at the club level. Every decision in the game engine is now powered by detailed player models combined with realistic physics. FIFA 20 introduces a brand new spectator view. Get immersed into the game like never before with new 360° camera views and impact-based audio. Introducing "The Pitch Cam," the most immersive camera angle in football. Featuring

multiple camera views, "The Pitch Cam" gives you the best views of the pitch, including unprecedented views on the action from every angle. "The Pitch Cam" brings you close to the action and makes it easier to see the incredible detail on the pitch. "The Pitch Cam" features more advanced pitch shading, which is a new technique used to simulate the effect of light on the pitch. The pitch is fully destructible with new decisions such as wall collisions, goal kicks, and player strikes all having a dynamic impact on the pitch. FIFA 20 features all-new offline modes designed

specifically for the most connected gamers. 4-Player Dream Team gives you the chance to build your dream team of the best in the world. Starting with a blank squad, you can decide what positions to fill, then optimize it using tactics. Create your own custom leagues from scratch or join a community league with friends. Offline Gameplay Mode allows you to play the game offline without using the internet, no patching required. Exclusive Content will include all the content that's released for real life like kits, manager contracts, sponsorship deals, events,

exhibitions, and player transfers. FIFA 20 introduces the most intuitive gameplay controls in the history of the series. Adding an extraordinary level of responsiveness and control, teams now feel more like they're playing soccer in the real world. Tap quickly in the air to change direction and pass, and sprint or slide to avoid challenges like defenders and refs. Fight for the ball with your favorite players

30+ countries, compete in single and multiplayer matches and more. Pick from over 30 leagues across Europe and over 20 leagues across the Americas and Australia. Choose from 672 licensed kits and load out your players and their equipment with the most authentic touches of football. Feel the emotion of the crowd with crowd reactions, chants and players making announcements around the stadium. Play and manage your team to the top of the league, compete in tournaments or create a club of your own. Create a custom team from 32 real-life

professional clubs, including Juventus, and play it on the pitch of your dreams.

SEE WHAT THE COMMUNITY SAYS:

Everything we see from the graph just makes FIFA more appealing as a videogame and as a sport. We can never fully get over the fact that this is the game of soccer, just imagine our smiles when Tom Petty's big hit "American Girl" came on over the PA system. Simply put, FIFA hits all the right notes. Being able to play with friends and family without them knowing that you are the one not using real players, is definitely the best

feature. The two modes are the best and adding custom players is pretty cool, plus adding 4-5 managers is enough to get the whole family hooked.

Finally, the revolutionary physics engine at Frostbite™ has made the game feel even better than it already does, but it still feels very realistic. Fun

Factor: 8.3 FIFA is not just another sports game, it is almost an emotion. When playing this game I truly believe that I am in the stadium, hearing the stadium, seeing the stadium, feeling the stadium. It all seems real, but again, this is a game. It is not real, so

FIFA® is the leading sports video game franchise of all time and the #1 Sports Franchise of all time at the PlayStation®2, PlayStation®3 and Xbox 360 consoles in the UK, the only market in which FIFA sells more than any of its competitors. Built around one of the most authentic, realistic and exciting sports experiences in the world, FIFA gives you the opportunity to play, practice and coach as a football legend, the way football is played around the globe. How is EA SPORTS FIFA different? As the Worldwide Leader

in football gaming, EA SPORTS redefines what an athlete can accomplish. Its FIFA is the #1 Sports Franchise of all time at all major platforms, for which it is currently developing FIFA for the PlayStation 4, Xbox One and PC. The biggest game in the franchise features the smartest technology in football simulation, allowing you to take on the roles of football legends, create your own teams and train, practise and compete with your favourite players in an entirely new way. When is the release date? Your opportunity to take control

of the real world of football with FIFA comes this October 4th, 2014 on Xbox 360, PlayStation 3, PlayStation 4 and PC. The FIFA Ultimate Team* and FIFA Ultimate Draft modes introduce completely new ways to approach the game. The game features the first football AI and physics engine on the PS3 and PC. With an all-new way of playing on the PS4, FIFA™ PS4 only comes with the PS4 system or a separately sold PS4 system. Separately sold PS4 systems cannot be used with FIFA for PS4. The Foot Ball AI The all-new FIFA puts an unmatched level of simulation,

responsiveness and intelligence into the game. The Foot Ball AI was developed from the ground up to revolutionise the way players think, play and execute. It can't be cut out, enhanced or altered. Foot Ball AI will not end, it's not a bug and most importantly it's not a cheat. You can't tell the Foot Ball AI how to play or how to win. You can never predict when and how he/she will make a play on your behalf. The Foot Ball AI can put into play a play you didn't think of; the Foot Ball AI can win back a ball you were about to put back into play; and the
