Free downloads from Shareware Portal Phonetalk PPC Free | Audio / Multimedia 1.11 Advertisement Phonetalk PPC Free | Audio / Multimedia Description: The audio version of Phonetalk, an app which allows you to record voice and publish them as messages on Facebook, Twitter, LinkedIn, etc. is now available. Easy to use: Phonetalk records only the most important information (e.g. birthdays, dates, lists of contents, etc.). Search: Use the search function to find all messages from all contacts. Add a link to your website: Phonetalk can automatically publish a link to your website or share the most recent message on Twitter. The audio version of Phonetalk

Mobile Voice E-Mail Pilot is designed to help you manage your voice mail messages. It provides an intuitive interface to help you select the sound for your greeting, record your voice, and save voice mail messages in folders using simple browsing. It provides a full screen for easy viewing of your voice mail messages. System Requirements: This app supports iPhone, iPod touch, and iPad. For iPod touch, you need to have at least iOS 5.0. No Data Usage: Voice E-Mail Pilot records only the names of voice mail messages. It does not record the contents of voice messages. However, you can save the recorded voice mail messages in the app by using the built-in organizer. Settings: • Change the sound for your greeting. • Record your voice • Sort messages by subject • Save recorded voice mail messages into folders • Sort messages by date • Save the recorded voice mail messages when you quit the app How To Use Voice E-Mail Pilot: 1. Choose the sound you want to use for your greeting when you create a new voice mail. 2. Record a message 3. Click "Save" to save the recorded voice mail message Voice E-Mail Pilot FAQ For which versions does this app support? This app supports iPhone, iPod touch, and iPad. I received an error when I try to add or edit a voice mail on my device. (Application has stopped unexpectedly) You probably have a problem with your device. Check the software version on your device. Make sure you update to the latest software. To do this go to Settings > General > Software Update and update the software for your device. What is the response time after I send a voice mail? About 5 to 10 minutes. You can receive voice mails any time. What is the storage capacity of my device? (Please be aware that the value displayed in the app is simply an estimate.) I don't know what the storage capacity of my device is. You can check what the storage capacity is of your device by going to Settings > General > About and looking at the storage space used for your device. How do I re-record a voice mail? The response time for re-recording a voice mail is about 5 to 10 minutes. You can re-record a voice mail by simply saving the message again. Is there a limit on the number of voice mail b7e8fdf5c8
