Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. As always, before we jump into gameplay, we'd like to thank all of you for getting involved and giving us your feedback on the game. We're using your suggestions to help guide us towards a better future for Purple Manor. So before we get started, we want to tell you a little bit about this week's episode of Living with Prias. This week on Living with Prias, we are looking at the launch of a new title from Roblox. And, while this will only be available to Roblox members, we just want to give you a little more information before we jump in. As you may know, the game is called Purple Manor. This is a title that comes with an interactive journal. You can view the entries, and many of the images, and even make some of them yourself. As you go through the journey of building the haunted house, you will be able to invite people over and more. You will be able to try to scare them or try to get them to just help you finish the job. Some of you have noticed that the game allows you to use the journal on your mobile devices, and this video will give you a quick run-through on how you can view your journal on your mobile device. As you can see, you can add a page, and more. You can also make new journal entries, and even change some of your journal entries. So, now that we know a little bit about this new title, we're ready to get back into gameplay. As you may or may not know, we need to restart the game, and sometimes we need to be asked to go through it again. So, this week, we will be giving it to you once more. This all depends on how badly you want robux. If you don't care about getting them all, someone that has all those are not going to give them away. If you do, here are a few of my friends and myself that have free robux, some of them are even proud of it. : Anyways, I'm the one that has the most. I just went on when I was bored and noticed how much I had. Then I went through the robux and repurchased items for my friends. Then I started a 50 million game quest that would add us to who has free robux. Like, it was my great idea to do that and I'm the one that has it. :) If you're actually logged in, there are no "free robux" on Roblox, it would be a major exploit. That said, I'll tell you what to do so you can have free robux and get your friends free robux at the same time (if you really want to have those robux). First, play a game for almost 30 minutes, if you win and get robux, then go to your friend list. The robux you have are free, and it doesn't matter if you're logged out. You're still on your friends list, so you're still free robux. Canonball, I forgot to mention, you can have friends in your friend list that aren't actually friends, so if you did that, when you get free robux, you can give it to that friend's character to get him free robux. But, if it's someone you are actually friends with, you won't have that. But, if it's someone you are actually friends with, you won't have that. Yeah, I just realized that while reading this post. I was pretty much going to say something like that. *cough* Also, I think there is a way to actually get paid robux. For example, if you were to win a game for lots of robux, you could go to the robux screen and buy credits for the amount of robux that you won. Also, I think
