We have highly experienced IT solutions team & supporting technical support team. And we cover all situation which you can encounter during a service support. Our technical support team is also a part of our solution delivery team, so our expertise will be one of the solution that comes to you. Our help desk support includes the following services:

- Remote Assistance: We offer remote assistance services where your remote desktops are securely backed up into our Data Center. Remote Assistance allows you to access your desktops or applications, even if you are in a disaster recovery setting.
- Remote Maintenance: We offer remote maintenance services that help to keep our customers' systems up and running without them having to be on-site. You can remotely access and troubleshoot your desktop or server using a virtual keyboard and screen.
- On-Site Maintenance: We offer on-site maintenance services to help you monitor, test, fix, and troubleshoot your systems. This includes Onsite installation or repair, Onsite configuration of products, Onsite testing or verification of products, Onsite training, Onsite consultation, Onsite backup, Onsite network troubleshooting.
- Hard-Drive Installation: We can hard drive install any system with the exception of server hard drives. By providing you with hard drive service, and doing it on site, we'll save you the cost of the hard drive, and the cost to return it to us and out to you. If you need a Jad File Reader for Windows PC our Web-based Remote Desktop Service which provides support from your home or office is highly recommended. You will just need to have an internet connection to do the job, it is fast and easy. We at Jad offer a full range of services, from installation, configuration, network, server, server management, hardware, system, server, hardware management and software support. We provide most of the services you'll need, from the great Remote Desktop Services, to network and server administration. If there's something missing, then we'll find out what it is and do what we can to get you what you need. With our talented, friendly, and professional team of engineers, we'll get your job done quickly and successfully.

Frequently Asked Questions If we are only installing one application, why do we need to take backup?
As many other software, Jad File Reader also need some system files to run
