for more on this film, check out my les miserables 2012 movie review: les miserables 2012 movie review. as always, if you want to send me something, drop me a line at lautrec@hotmail.com for friendly perusal. ill also take fan mail, hate mail, etc, but i do try to limit myself to one per week (unless its very good). the story of les miserables is based on the classic novel by the french author victor hugo and tells the story of ex-prisoner jean valjean, who was released from jail after 10 years, and who helps a young woman named fantine, who is dying of syphilis and has five children. valjean becomes a wealthy man thanks to this incident. he is then offered money by m. tholomyes, a rich patron, and he sets off with cosette, his adoptive daughter, to live in a small town, where he waits to see the man who took advantage of him. when a policeman, javert, learns that valjean is alive, he rushes after him. he appears before the mayor and, scared by the news, is forced to leave with valjean, who, at that point, is no longer wanted. one of the biggest differences between les miserables and most hollywood musicals is that its a non-traditional musical. it was kind of a brave move for the producers, and i think they succeeded in making a great movie, but its not a traditional musical. its got a lot of memorable songs and some very clever writing (thats what the people who are nominated for the oscar get.) this was also the first time i had ever seen a musical with 3d and i really enjoyed it. the 3d isn't as prevalent as it could be, but for someone who has never seen a movie in 3d, it would be pretty enjoyable.
