
La Historia Secreta Del Mundo Jonathan Black Pdf Extra Quality

Alonso Perez de Hita, a soldier and gentleman, was born in Granada in 1490. The account that he relates of the conquest of Peru is in the form of a Relacion, descripción del reyno y poblamiento de la Amazona y otros reyes y señores y conquistadores y asentamientos de los Indios, que ay para estas Indias peruanas, hecha en la conquista de la Nueva Castilla, llamada la Amazona, por los capitanes y soldados de las flotas enviadas alla por los Reyes y Señores todos aquellos, conocidos por la palabra Indio. This was first published in the sixth decade of the seventeenth century, and the *historiadores primitivos de Indias* ed. of 1853, which includes it as Vol. XXVI, has a fine engraving of its portrait. The history of la Amazona is a compilation of unrelated scraps of information from the different authors. There are many mistakes in its pages, from which the reader may conclude that the historian at no point understood his business. A serious and wide-ranging scholar, Hita has not escaped the perils of history. The scattered comments made by historians of the colonial period are frequently biased. The worst of the worst are those contained in the volume *Los virreyes de la Conquista de Méjico* (Mexico, 1942), a mass of trash about the conquest written by a sadistic scalawag, Claude Ortiz de Zevallos. The best sources on the history of the conquest, which must be seriously studied, are Garcilaso's *Comentarios* rey Pantaleon, Antoine Brice's *Le vieux Perou*, and the *Jornada and Pedernal* of Fray Luis de Cervantes. For another source, see the last part of the *Comentarios Reales de la Conquista de Perú*, by Garcilaso, under date of 1577, with the title *La conquista y segunda expedicion del rey Fernando Cortes Don Fernando de Nueva España, en el año y mese de Abril 1525*. [36] The substance of that narrative is the same as the work cited in the Preface. I have substituted for the older narrative of Garcilaso the more modern publication of the *Conquest* by Perkins and others (London, 1798). For a history of the conquest, see the work already mentioned in *The Conquest of America*, by Jose Francisco de Faria y Castillo, 8vo, Madrid, 1850, and our own *Diccionario de historia de la Conquista*, 8vo, Madrid, 1866. In this volume we deal with the conquest of the Peruvian empire by the Emperor Charles V, and with the early progress of the colonial period.
