Automatically Free RAM (Memory) Software Crack+

Automatically Free RAM (Memory) Software is an application that can be used to clean your on-board memory of any free RAM on your PC. Main Features: * Easy to use GUI that helps you to set cleaning intervals and deactivate SuperFetch. * Three cleaning cycles (long, short, memory-intensive) with different cleaning intervals. * All cleaning cycles will be executed automatically when the RAM is free, provided that the timer has not been reset. * You can also define specific cleaning cycles for the task that is automatically set to run. * Remaining time is shown in the status bar. * Ability to deactivate SuperFetch in order to save even more memory. * Ability to load the program when Windows starts up. * Ability to view history log. What's New: Version 1.0: Version 1.01: v1.1: v1.0.7: * Added support for removing Windows XP. * Ability to make sure the application does not run when you boot your computer. * Added more languages. * Minor corrections and adjustments. By default, Automatically Free RAM (Memory) Software will clean the RAM at the next scheduled cleaning interval if the RAM is free at that moment. However, you can deactivate this functionality in order to have the RAM cleaned every X time units (as in case of memory-intensive applications) or when you feel the need of having the memory cleaned immediately. Also, you can define a specific cleaning cycle for the task that is automatically set to run. In order to help users with better understanding of how it works, Automatically Free RAM (Memory) Software provides a history log of all its activities. This is where you can find any information regarding the RAM cleaning process. Furthermore, if you have any issues related to the utility, don't hesitate to contact us at the associated e-mail address. Requirements: All users with Windows XP, Windows 7, Windows 8, Windows 8.1, and Windows 10 are supported. All users with Windows Vista are also supported if they have

Automatically Free RAM (Memory) Software version 1.01 or greater. We also recommend that if you want to use this utility, you should have at least 2 GB of free RAM on your computer. As you may know, the main purpose of a utility like this one is to clean the RAM
